## TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office JUN 1 5 1982				
Returned to applicant for correction AUG 1 2 1982				
Corrected application filed DEC 1 c 1982				
Map filed DEC 1 6 1982				
The applicant Joseph W. Christie				
P. O. Box 1136 of Sparks Street and No. or P.O. Box No. City or Town	·····•			
Nevada 89431 , hereby make S application for permission to appropriate the p	ublic			
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation,	рога-			
tion; if a copartnership or association, give names of members.)				
	<b>.</b>			
1. The source of the proposed appropriation is Underground				
1. The source of the proposed appropriation is Underground  Name of stream, lake, spring, underground or other source				
2. The amount of water applied for is.  O.01 (between 3 - 4 gpm rate) second One second-foot equals 448.83 gals, per min.	l-feet			
(a) If stored in reservoir give number of acre-feet.				
3. The water to be used for Metallic Mineral Milling & Domestic  Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.				
. If use is for:				
(a) Irrigation, state number of acres to be irrigated:				
(b) Stockwater, state number and kinds of animals to be watered:				
(c) Other use (describe fully under "No. 12. Remarks"				
(d) Power:				
(1) Horsepower developed				
(2) Point of return of water to stream				
5. The water is to be diverted from its source at the following point: within the NE's of NW's, Section of Describe as being within a 40-acre subdivision of				
T31N, R35E, M.D.B. & M. or at a point from which the NE corner of said Section survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.				
16 bears N 66 <sup>0</sup> 17'50" E a distance of 3365.01 feet.				
6. Place of use 5 Acres within NE NW Sec 16, T31N, R35E MDB&M  Describe by legal subdivision. If on unsurveyed land, it should be so stated.				
7. Use will begin about January 1 and end about December 31, of each year.  Month and Day Month and Day				
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plan	s and			
specifications of your diversion or storage works.) Drilled well with pump, motor and pressure State manner in which water is to be diverted, i.e. diversion structure, dite				
flumes, drilled well with pump and motor, etc.				
9. Estimated cost of works \$1,500.00				

10.	Estimated time required to construct works. 120 days after Permit issue  If well completed, describe works.				
11.	Estimated time required to complete the applica	ation of water to beneficial use	180 days after Permit issue		
12.	Remarks: For use other than irrigation or stock consumptive use.	narks: For use other than irrigation or stock watering, state number and type of units to be served or annual sumptive use.			
	Primary use is for acid mineral 1	each dilution in pilot	scale metallurgical pro-		
	cess development. Maximum annual consumption will not exceed 146,000 gallons				
	.per year (400 gpd).

	APPROVAL	OF STATE ENGINEER			
amo rig pla rea two mus and mea mus of Eng of pub fee The	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:  This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. This well shall be equipped with a two (2) inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained to prevent waste. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of water begins, or before the Proof of Completion of Work is filed. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.  This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.  No perforations shall be put in the production casing from ground level to 100 feet.  This permit is issued under the preferred use provisions of NRS Chapter 534. The The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed.  0.01 cubic feet per seconds but not to exceed 0.146 million gallons annually.				
Worl	k must be prosecuted with reasonable diligence	and be completed on or before.	March 6, 1985		
Proo	f of completion of work shall be filed before	***************************************	April 6, 1985		
Appl	ication of water to beneficial use shall be made o	on or before	March 6, 1987		
Proo	f of the application of water to beneficial use sl	hall be filed on or before	April 6, 1987		
Мар	in support of proof of beneficial use shall be file	ed on or before			
	oletion of work filed		PETER G. MORROS, ereunto set my hand and the seal of

manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use.
